National Youth Information Framework

Identifying and definitional attributes

Item type: Framework Dimension

METEOR identifier: 401172

Description: The National Youth Information Framework, previously used in developing indicators for the Young Australians: their health and wellbeing 2007 report, is aligned very closely with the NHPF, with minor modifications to better capture health and wellbeing issues relevant to young people. This framework consists of three tiers:

1. Health status,
2. Determinants of health and
3. Health system performance,

and includes a number of dimensions within each tier. The National Youth Information Framework provides a comprehensive set of indicators across a range of dimensions that will help monitor the health and wellbeing of young Australians.
