Data element attributes

Collection and usage attributes

Guide for use:	Only formal referrals are collected in this data element. The list of forms of referrals in the classification or value domain are regarded as formal referrals. A formal referral is any form of verbal or written contact with the person, group or organisation from which the individual or group could be referred.
Collection methods:	The permissible values for this data element are used to form the response categories to the question: 'From the referral list below please select one that represents the source of formal referral for this client.'
