# Specialised mental health service—residential service unit identifier, XXXXXX

## Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Residential service unit identifier
METEOR identifier:	404837
Registration status:	<a href="#">Health</a> , Superseded 16/01/2020 <a href="#">Independent Hospital Pricing Authority</a> , Qualified 23/11/2015
Definition:	A unique identifier for a specialised mental health residential service unit, as represented by a combination of numeric and/or alphabetic characters.
Data Element Concept:	<a href="#">Specialised mental health service—residential service unit identifier</a>
Value Domain:	<a href="#">Identifier XXXXXX</a>

## Value domain attributes

## Representational attributes

Representation class:	Identifier
Data type:	String
Format:	XXXXXX
Maximum character length:	6

## Data element attributes

## Collection and usage attributes

Guide for use:	<p>For the residential service setting, as a minimum, 24-hour staffed residential services that employ mental health trained staff on-site 24 hours per day and other services with less intensive staffing (but the trained staff on-site for a minimum of 6 hours a day and at least 50 hours per week) should be defined as separate service units. This applies to both government-operated residential services and government-funded residential services operated by non-government organisations. In addition, residential service units should be differentiated by target population. Residential services would be separately identifiable as service units using the <a href="#">Specialised mental health service—target population group, code N</a> data element. For additional information, please refer to the glossary item <a href="#">Residential mental health care service</a>.</p> <p>The complete identifier string, including State/Territory identifier, Region identifier, Organisation identifier, Service unit cluster identifier and Residential service unit identifier, should be a unique code for the service unit in that state/territory. Service unit reporting structures should be identical between all mental health collections (e.g., Mental Health National Minimum Data Sets and the Mental Health National Outcomes and Casemix Collection (NOCC)).</p>
