Collection and usage attributes

Guide for use:	<p>The names of specialised mental health service organisations are determined by the relevant state or territory. Note that an organisation is defined according to the object class <i>Specialised mental health service organisation</i>.</p> <p>The name should be unique for the organisation in that state/territory. Mental health data collections are hierarchical in nature. An identical reporting structure, including organisation name, should be common between all mental health collections, including the Mental Health Establishments (MHE), Community Mental Health Care (CMHC) and Residential Mental Health Care (RMHC) NMDs, the Mental Health National Outcomes and Casemix Collection and any future mental health collections.</p>
