Collection and usage attributes

Guide for use:	All sources of cash income are included in this concept. Cash income may be received from employment (Employee cash income), as a profit or loss from an unincorporated enterprise (Unincorporated business cash income), from the ownership of assets (Property cash income). Income may also be derived from current transfers from government (pensions and benefits) or from private sources, such as superannuation funds. An individual may receive cash income from more than one source.
Collection methods:	Excluded from this concept is income in kind e.g. barter for goods or services. If the person has multiple sources of income, all sources should be counted. This question is not asked of persons aged less than 15 years because they are generally dependants. The 4-digit level is detailed below, including two supplementary codes: Detailed (four-digit) level of sources of cash income 1101 Employee income

DSS specific information:

Note that this data element is designed specifically to reference the ABS Sources of income standard variable. Consequently, the value domain definitions explicitly exclude anyone aged under 15; effectively this reflects the scope of ABS collections. If information on children under 15 years old who present, is sought for the Specialist Homelessness Services NMDS, these persons may also be asked the sources of income questions. However, they should be filtered using the Age data element from any returns intended to retain compatibility with ABS data.

For the purposes of the SHS collection the following list is used which aggregates to the ABS Sources of Income Classification.
