

Aboriginal and Torres Strait Islander Health Performance Framework

The Aboriginal and Torres Strait Islander Health Performance Framework (HPF) provides a framework to monitor progress against the National Strategic Framework for Aboriginal and Torres Strait Islander Health 2003 to 2013. The Health Performance Framework monitors progress of the health system and broader determinants of health in improving Aboriginal and Torres Strait Islander Health. The HPF comprises three tiers of performance as follows:

Dimensions of this framework

- [Tier 1-Health Status and Outcomes](#)

This Tier covers measures of prevalence of health conditions (e.g. circulatory disease, diabetes), human function (e.g. disability), life expectancy and well-being and deaths. This Tier aims to provide an overall indication of current health status and recent trends in the health status of Aboriginal and Torres Strait Islander peoples on a range of health issues. These issues include child and maternal health, chronic diseases, injury, communicable diseases, social and emotional wellbeing and overall health status.

Sub-dimensions of this framework

- [Deaths](#)

Age and/or condition specific mortality rates.

Indicators in this framework

- [National Indigenous Reform Agreement: P02-Mortality rate \(and excess deaths\) by leading causes, 2010](#)
[Community Services \(retired\)](#), Superseded 04/04/2011
- [National Indigenous Reform Agreement: P09a-Child under 5 mortality rate \(and excess deaths\) \(AIHW Data\), 2010](#)
[Community Services \(retired\)](#), Superseded 04/04/2011
- [National Indigenous Reform Agreement: P09b-Child under 5 mortality rate \(and excess deaths\) \(ABS Data\), 2010](#)
[Community Services \(retired\)](#), Superseded 04/04/2011
- [National Indigenous Reform Agreement: P10-Mortality rates \(and excess deaths\) for children under 5 by leading causes, 2010](#)

- [National Indigenous Reform Agreement: PI 01-Estimated life expectancy at birth, 2020 Indigenous](#), Standard 23/08/2019

• **Tier 2-Determinants of Health**

This Tier consists of measures of the determinants of health which focus on factors outside the health system

that impact on the health of Aboriginal and Torres Strait Islander peoples. The domains covered in this Tier include socioeconomic status (e.g. income and education), environmental factors (e.g. overcrowding), community capacity (e.g. child protection), health behaviours (e.g. risky alcohol consumption and dietary behaviours) and person-related factors (e.g. prevalence of overweight and obesity). Such factors have been shown to have a strong association with both disease and ill-health.

Sub-dimensions of this framework

◦ [Community Capacity](#)

Characteristics of communities and families such as population density, age distribution, health literacy, housing, community support services and transport.

◦ [Environmental Factors](#)

Physical, chemical and biological factors such as air, water, food and soil quality resulting from chemical pollution and waste disposal.

◦ [Health Behaviours](#)

Factors that influence health status. Attitudes, beliefs knowledge and behaviours eg. patterns of eating, physical activity, excess alcohol consumption and smoking.

Indicators in this framework

• [Tier 3-Health System Performance](#)

This Tier includes measures of the performance of the health system including population health, primary health care and secondary/tertiary care services. Six domains are covered: effectiveness of health services, responsiveness of health services to Aboriginal and Torres Strait Islander communities and individuals, accessibility of services, capability and sustainability. This Tier includes measures that deal with a range of programs and service types including child and maternal health, early detection and chronic disease management, continuous care, access to secondary/tertiary care, the health workforce and expenditure.

Sub-dimensions of this framework

◦ [Accessible](#)

Ability of people to obtain health care at the right place and right time irrespective of income, cultural background or physical location.

Indicators in this framework

- [National Indigenous Reform Agreement: P08-Access to health care compared to need, 2010 Community Services \(retired\)](#), Superseded 04/04/2011
- [National Indigenous Reform Agreement: PI 08-Access to health care compared to need, 2011 Indigenous](#), Superseded 01/07/2012
- [National Indigenous Reform Agreement: PI 08-Access to health care compared to need, 2012 Indigenous](#), Superseded 13/06/2013

◦ [Capable](#)

An individual or service's capacity to provide a health service based on skills and knowledge.

◦ [Continuous](#)

The ability to provide uninterrupted, coordinated care or service across programs, practitioners, organisations and levels over time.

Indicators in this framework

- **[Effective/Appropriate/Efficient](#)**

Effective: Care, intervention or action achieves the desired outcome.

Appropriate: Care, intervention or action provided is relevant to the client's needs and based on established standards.

Efficient: Achieve desired results with most cost effective use of resources.

- **Responsive**

Service provides respect for persons and is client oriented, including respect for dignity, confidentiality, participation in choices, promptness, quality of amenities, access to social support networks, and choice of provider.

- **Safe**

The avoidance or reduction to acceptable levels of actual or potential harm from health care management or the environment in which health care is delivered.

Indicators in this framework

- [KPIs for Australian Public Mental Health Services: PI 16J – Restraint rate, 2018 Health](#), Superseded 16/02/2021
- [KPIs for Australian Public Mental Health Services: PI 16 – Restraint rate, 2018 \(Service level\) Health](#), Superseded 16/02/2021
- [KPIs for Australian Public Mental Health Services: PI 16 – Restraint rate, 2019 \(Service level\) Health](#), Superseded 16/02/2021
- [KPIs for Australian Public Mental Health Services: PI 16J – Restraint rate, 2019 Health](#), Superseded 16/02/2021

- **Sustainable**

System's or organisations' capacity to provide infrastructure such as workforce, facilities and equipment, and be innovative and respond to emerging needs (research, monitoring).
