Tier 3-Health System Performance

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	410680
Description:	This Tier includes measures of the performance of the health system including population health, primary health care and secondary/tertiary care services. Six domains are covered: effectiveness of health services, responsiveness of health services to Aboriginal and Torres Strait Islander communities and individuals, accessibility of services, capability and sustainability. This Tier includes measures that deal with a range of programs and service types including child and maternal health, early detection and chronic disease management, continuous care, access to secondary/tertiary care, the health workforce and expenditure.

Dimensions of this framework

- [Accessible](#)

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	410683
Description:	Ability of people to obtain health care at the right place and right time irrespective of income, cultural background or physical location.

Indicators in this framework

- [National Indigenous Reform Agreement: P08-Access to health care compared to need, 2010 Community Services \(retired\)](#), Superseded 04/04/2011
- [National Indigenous Reform Agreement: PI 08-Access to health care compared to need, 2011 Indigenous](#), Superseded 01/07/2012
- [National Indigenous Reform Agreement: PI 08-Access to health care compared to need, 2012 Indigenous](#), Superseded 13/06/2013

- [Capable](#)

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	410685
Description:	An individual or service's capacity to provide a health service based on skills and knowledge.

- [Continuous](#)

Identifying and definitional attributes

Item type:	Framework Dimension
METEOR identifier:	410684
Description:	The ability to provide uninterrupted, coordinated care or service across programs, practitioners, organisations and levels over time.
