

# Sex of prison entrants cluster

## Identifying and definitional attributes

<b>Metadata item type:</b>	Data Set Specification
<b>METEOR identifier:</b>	412252
<b>Registration status:</b>	<ul style="list-style-type: none"><li>• <a href="#">Health</a>, Superseded 28/04/2016</li></ul>
<b>DSS type:</b>	Data Element Cluster
<b>Scope:</b>	These data elements are used in conjunction with each other to describe the number of male and female prison entrants into a prison during the National Prisoner Health Census period.

## Collection and usage attributes

**Guide for use:** The Sex of prison entrants cluster comprises two data elements which allow data on the number of male and female prison entrants into a prison during the National Prisoner Health Census period to be determined.

This is achieved by the combination of the two data elements: *Establishment (prison)—number of prison entrants, number N[NN]* and *Person—sex, code N*.

The Sex of prison entrants cluster describes the following information:

Sex	Number of prison entrants
Male	N[NN]
Female	N[NN]

**Comments:** The number and sex of prisoners entering Australia's prisons during the National Prisoner Health Census period will be used to derive statistics on the demographic characteristics of prison entrants.

## Source and reference attributes
