

Cancer treatment—treatment complication type

Metadata item type: Data Element Concept
METEOR identifier: 425587
Registration status:

- [Health](#), Standard 08/05/2014

Definition: The type of [treatment complication](#) (or complications) experienced by a person with cancer during their treatment for cancer and attributed to that treatment.

Object Class attributes

Identifying and definitional attributes

Object class: [Cancer treatment](#)

Definition: The course of cancer-directed treatment or treatments, with defined dates of commencement and cessation, given to the patient by a treatment provider or team of providers.

This may include cancer-directed surgical treatment, radiation therapy and systemic agent therapy for cancer. It applies to the primary course of cancer treatment, treatment administered to the patient in response to disease progression or treatment administered to the patient in response to disease recurrence.

Specialisation of: [Service/care event](#)
