Guide for use

Data source type: Administrative by-product data

Comments:

Most recent data available for 2011 CRC report is 2008.

At this stage, data are available for NSW, Queensland, WA, SA, Tasmania, NT and ACT. There are inconsistencies in the gathering of information about smoking during pregnancy across jurisdictions.

Rates are directly age standardised to the Australian female population who gave birth in the current reporting period (i.e. 2008 for reporting of 2008 data).

Maternal age is the age at the time of giving birth.

Baseline year for this indicator is 2008; target year is 2018.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Format: NN.N

Indicator conceptual framework

Framework and dimensions: [Health Behaviours](#)

Data source attributes

Data sources:

Data Source
