National Indigenous Reform Agreement: PI 18a-Proportion of 20-24 year olds having attained at least a year 12 or equivalent or AQF Certificate II (Census Data), 2011

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 18a-Proportion of 20-24 year olds having attained at least a year 12 or equivalent or AQF Certificate II (Census Data), 2011
METEOR identifier:	425785
Registration status:	Indigenous , Superseded 01/07/2012
Description:	Proportion of the 20-24 year old population having attained at least a Year 12 or equivalent or Australian Qualifications Framework (AQF) Certificate II.
Indicator set:	National Indigenous Reform Agreement (2011) Indigenous , Superseded 01/07/2012
Outcome area:	Schooling promotes social inclusion and reduces the educational disadvantage of children, especially Indigenous children Indigenous , Superseded 01/07/2016

Collection and usage attributes

Population group age from:	20 years
Population group age to:	24 years
Computation description:	Presentation: percentage.
Computation:	$100 \times (\text{Numerator} \div \text{Denominator})$.
Numerator:	People aged 20–24 years who have completed year 12 or whose level of highest non-school qualification is at Certificate II or above.
Numerator data elements:	Data Element / Data Set

[Person—age, total years N\[NN\]](#)

Data source type: Census

Comments:

Most recent data available for 2011 CRC report is:

- Main data collection: 2006 Census.
- Supplementary data collection: 2008 NATSISS (Indigenous) and 2008 Survey of Education and Work (SEW) (non-Indigenous).

The SEW does not include people living in very remote areas which may affect the comparability results.

The size of the standard errors mean that SEW data may not be adequate for measuring change over time.

The Indigenous undercount in the Census may introduce bias into the results for Indigenous disaggregation, which may affect comparability across states and territories.

Baseline year for this indicator is 2008; target year is 2020.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Format: NN[N].N

Indicator conceptual framework

Framework and dimensions: [Socioeconomic Factors](#)

Data source attributes

Data sources:**Data Source**
