National Indigenous Reform Agreement: PI 19- Apparent retention rates from 7/8 to year 10 and year 12, 2011

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 19-Apparent retention rates from 7/8 to year 10 and year 12, 2011
METEOR identifier:	425789
Registration status:	Indigenous , Superseded 01/07/2012
Description:	The apparent retention rates from years 7/8, to year 10 and year 12, by Indigenous status.
Rationale:	Successful completion of Year 12 is critical to improving the economic and social status of Indigenous peoples. Higher levels of education improve employment prospects, health, and wellbeing. Improvements in retention rates are crucial to the achievement of headline education outcomes such as completion of Years 10 and 12, with the latter being a major component of the attainment of Year 12 or Certificate II.
Indicator set:	National Indigenous Reform Agreement (2011) Indigenous , Superseded 01/07/2012
Outcome area:	Schooling promotes social inclusion and reduces the educational disadvantage of children, especially Indigenous children Indigenous , Superseded 01/07/2016

Collection and usage attributes

Computation description:	Presentation: percentage. Definitions: First year of secondary schooling is Year 7 in NSW, Vic, Tas, ACT; NT and Year 8 in Qld, WA & SA.
Computation:	100 x (Numerator ÷ Denominator).
Numerator:	To year 10: number of full time students in year 10 in reference year. To year 12: number of full time students in year 12 in reference year.

Numerator data elements:

Data Element / Data Set
Number of students in a particular year level

Data Source
[National Schools Statistics Collection](#)

Guide for use
Data source type: Administrative by-product data

Data Element / Data Set
School attendance status

Data Source

Guide for use

Data source type: Administrative by-product data

Comments:

Most recent data available for 2011 CRC report: 2009.

At this stage, data are not available by geo-location.

A number of factors may affect the accuracy of this measure, including repeating students, migration, inter-sector transfers and enrolment policies (such as different age/grade structures across jurisdictions). Therefore, the cohorts of students in year 10 and year 12 are not necessarily the same cohort of students in year 7/8.

It should be noted that relatively small changes in student numbers can result in large movements in retention rates.

Baseline year for this indicator is 2008; target year is 2020.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Format: NN[N].N

Indicator conceptual framework

Framework and dimensions: [Socioeconomic Factors](#)

Data source attributes

Data sources:
