Comments:

Most recent data available for 2011 CRC report is:

- Main data collection: 2006 Census.
- Supplementary data collection: 2008 NATSISS (Indigenous) and 2008 SEW (non-Indigenous).

At this stage, The Australian Bureau of Statistics (ABS) advises that information is only available on qualification levels for those who have completed studies (not those who are currently studying). Therefore, ABS recommends restricting definition for baseline reporting accordingly.

The SEW does not include people living in very remote areas which may affect the comparability of results.

Baseline year for this indicator is 2008; target year is 2018.
