## Multidisciplinary team review indicator

## Identifying and definitional attributes

Metadata item type: Property
METEOR identifier: 428242

Registration status: Health, Standard 08/05/2014

**Definition:** An indicator of whether a patient's treatment was discussed and planned at a

multidisciplinary team meeting.

The multidisciplinary team should consist of the core disciplines required for the

provision of good patient care, which will vary by disease type.

Property group: Planning event
