National Healthcare Agreement: PI 33-Women with at least one antenatal visit in the first trimester of pregnancy, 2012

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	PI 33-Women with at least one antenatal visit in the first trimester of pregnancy, 2012
METEOR identifier:	435858
Registration status:	Health , Retired 25/06/2013
Description:	The number of women who gave birth, where an antenatal visit was reported in the first trimester, as a proportion of women who gave birth
Indicator set:	National Healthcare Agreement (2012) Health , Superseded 25/06/2013
Outcome area:	Primary and Community Health Health , Standard 07/07/2010
Data quality statement:	National Healthcare Agreement: PI 33-Women with at least one antenatal visit in the first trimester of pregnancy, 2012 QS Health , Retired 14/01/2015

Collection and usage attributes

Computation description:	First trimester is defined as before 14 weeks of pregnancy. Births include live births and still births. Indigenous rates are directly age-standardised to the 2001 Australian population. Excludes Australian non-residents, residents of external territories and records where state/territory of residence was not stated. Excludes records with missing data for gestation at first antenatal visit. Analysis by state and territory, remoteness and SEIFA Index of Relative Socioeconomic Disadvantage (IRSD) is based on usual residence of the mother. Presented as a percentage.
Computation:	$100 \times (\text{Numerator} \div \text{Denominator})$
Numerator:	Number of women who gave birth, where an antenatal visit was reported in the first trimester (up to and including 13 weeks gestation) for at least one live or stillborn baby

Numerator data elements:**Data Element / Data Set****Data Element**

Gestational age in completed weeks at first antenatal visit

Data Source

[AIHW National Perinatal Data Collection \(NPDC\)](#)

NMDS / DSS

[Perinatal NMDS 2008-2010](#)

Guide for use

Data source type: Administrative by-product data

Denominator:

Total number of women who gave birth to at least one live or stillborn baby where gestation at first antenatal visit is known.

Denominator data elements:**Data Element / Data Set****Data Element**

Gestational age in completed weeks at first antenatal visit

Data Source

[AIHW National Perinatal Data Collection \(NPDC\)](#)

NMDS / DSS

Guide for use

Data source type: Administrative by-product data

Disaggregation:

2009—Nationally, by SEIFA Index of Relative Socioeconomic Disadvantage (IRSD) deciles

2007 and 2008 (Indigenous data revised for age standardisation), and 2009—State and territory, by:

- Indigenous status
- remoteness (Australian Standard Geographical Classification Remoteness Structure)
- SEIFA IRSD quintiles

Some disaggregation may result in numbers too small for publication.

NMDS / DSS

[Perinatal NMDS 2008-2010](#)

Guide for use

Data source type: Administrative by-product data

Data Element / Data Set

[Person—area of usual residence, geographical location code \(ASGC 2007\) NNNNN](#)

Data Source

[AIHW National Perinatal Data Collection \(NPDC\)](#)

NMDS / DSS

[Perinatal NMDS 2008-2010](#)

Guide for use

Data source type: Administrative by-product data
Used for disaggregation by state/territory, remoteness and SEIFA IRSD.
Geographic unit used is Statistical Local Area. If data are coded according to ASGC boundaries in another year, concordance files are used to map between boundaries.

Comments:

Most recent data available for 2012 CRC report: 2009

Data for this indicator are only available to report three jurisdictions for 2012 reporting (NSW, SA and NT).

Information is included in the National Perinatal Data Collection for all live births and still births or at least 400 grams or at least 20 weeks gestation.

For further detailed analysis by Indigenous status see the National Indigenous Reform Agreement (NIRA) report.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Format: NN.N

Indicator conceptual framework

Framework and dimensions: [Accessibility](#)

Data source attributes

Data sources:**Data Source**

[AIHW National Perinatal Data Collection \(NPDC\)](#)

Frequency

Calendar years ending 31 December each year

Data custodian

Australian Institute of Health and Welfare

Accountability attributes

Reporting requirements: National Healthcare Agreement

Organisation responsible for providing data: Australian Institute of Health and Welfare

Further data development / collection required: Specification: Interim, pending development and implementation of standard data definitions.
