National Healthcare Agreement: PI 54-Aged care assessments completed, 2012

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	PI 54-Aged care assessments completed, 2012
METEOR identifier:	436891
Registration status:	Health , Retired 25/06/2013
Description:	Number of aged care assessments completed under the Aged Care Assessment Program (ACAP)
Indicator set:	National Healthcare Agreement (2012) Health , Superseded 25/06/2013
Outcome area:	Aged Care Health , Standard 07/07/2010
Data quality statement:	National Healthcare Agreement: PI 54-Aged care assessments completed, 2012 QS Health , Retired 14/01/2015

Collection and usage attributes

Computation description:	Analysis by remoteness and SEIFA Index of Relative Socioeconomic Disadvantage (IRSD) is based on usual residence of person. Presented as: <ul style="list-style-type: none">• a number• number per 1,000 (total population)• total per population (70 years or over plus Indigenous people aged 50–69 years).
---------------------------------	--

Computation:	Number $1,000 \times (\text{Numerator} \div \text{total population})$ $1,000 \times (\text{Numerator} \div \text{target population})$
Numerator:	Number of ACAP assessments completed

Numerator data elements:	<table border="1"><tr><td>Data Element / Data Set</td></tr><tr><td>Number of ACAP assessments completed</td></tr><tr><td>Data Source</td></tr><tr><td>Australian Government Department of Health and Ageing's Ageing and Aged Care data warehouse</td></tr><tr><td>Guide for use</td></tr><tr><td>Data source type: Administrative by-product data</td></tr></table>	Data Element / Data Set	Number of ACAP assessments completed	Data Source	Australian Government Department of Health and Ageing's Ageing and Aged Care data warehouse	Guide for use	Data source type: Administrative by-product data
Data Element / Data Set							
Number of ACAP assessments completed							
Data Source							
Australian Government Department of Health and Ageing's Ageing and Aged Care data warehouse							
Guide for use							
Data source type: Administrative by-product data							

Denominator:	Projected total population Projected target population (total population 70 years or over plus Indigenous population aged 50–69 years)
---------------------	---

Denominator data elements:

Data Element / Data Set

Person—estimated resident population of Australia

Data Source

[ABS Estimated resident population \(total population\)](#)

Guide for use

Data source type: Census-based data plus administrative by-product data

Data Element / Data Set

Person—estimated resident population of Australia

Data Source

[ABS Indigenous experimental estimates and projections \(2001 Census-based\)](#)

Guide for use

Data source type: Census-based data plus administrative by-product data

Disaggregation:

2007–08 (revised for SEIFA), and 2009–10—Nationally, by SEIFA Index of Relative Socioeconomic Disadvantage (IRSD) deciles

2007–08 (revised for remoteness and SEIFA), and 2009–10—State and territory, by:

- age group (<50, 50–64, 65–69, 70–74, 75–79, 80–84, 85 years and over)
- Indigenous status
- remoteness (Australian Standard Geographic Classification Remoteness Structure)
- SEIFA IRSD quintiles

Some disaggregation may result in numbers too small for publication.

Disaggregation data elements:

Data Element / Data Set

Person—age

Data Source

[Australian Government Department of Health and Ageing's Ageing and Aged Care data warehouse](#)

Guide for use

Data source type: Administrative by-product data

Data Element / Data Set

Person—area of usual residence

Data Source

[Australian Government Department of Health and Ageing's Ageing and Aged Care data warehouse](#)

Guide for use

Data source type: Administrative by-product data
Used for disaggregation by remoteness and SEIFA IRSD

Data Element / Data Set

Person—Indigenous status

Data Source

[Australian Government Department of Health and Ageing's Ageing and Aged Care data warehouse](#)

Guide for use

Data source type: Administrative by-product data

Data Element / Data Set

Service provider organisation—Australian state/territory identifier

Data Source

[Australian Government Department of Health and Ageing's Ageing and Aged Care data warehouse](#)

Guide for use

Data source type: Administrative by-product data
Used for disaggregation by state/territory

Comments:

Most recent data available for 2012 CRC report: 2009–10

ACAP assessment is required to access residential aged care, Community Aged Care Packages (CACP), Extended Aged Care at Home (EACH), EACH Dementia (EACH-D) and the Transition Care Program. ACAP assessment not required for Home and Community Care (HACC) and Veterans' Home Care (VHC).

DoHA population projections:

DoHA projections of the total population are based on the 2006 Census. These projections were prepared (as SLA level) for DoHA by the Australian Bureau of Statistics (ABS) according to assumptions agreed to by DoHA.

DoHA Indigenous population projections were prepared from ABS Indigenous Experimental 2006 ERP data (at SLA level) projected forward so as to align with published ABS Indigenous Experimental Estimates and Projections (ABS cat. no. 3238.0, series B) at the state and national level.

DoHA projections by remoteness areas are prepared by summing SLA projections to Remoteness Areas.

Representational attributes

Representation class:	Count
Data type:	Real
