Comments:

Most recent data available for 2012 CRC report: 2010–11

Note that the age groups presented are consistent with the COAG Younger People in Residential Aged Care (YPIRAC) target group: people with disability aged under 65 years who live in, or are at risk of, entering residential aged care, with initial priority being given to those under 50 years of age who reside in an aged care facility.

The count is unique clients, aged under 65 years, receiving residential or aged care services within a state/territory during the 12 months to 30 June. A client may be counted more than once if they have received care under multiple programs or across multiple states/territories.
