Indigenous primary health care: PI16a-Number of regular clients whose alcohol consumption status has been recorded, 2012

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	PI16a-Number of regular clients whose alcohol consumption status has been recorded, 2012
METEOR identifier:	438220
Registration status:	Health , Superseded 23/02/2012
Description:	NOTE: THIS PERFORMANCE INDICATOR HAS BEEN SUPERSEDED BY ITS EQUIVALENT FOR 2013, WITHOUT BEING MADE A STANDARD. Number of regular clients who are Indigenous, aged 15 years and over and who have had their alcohol consumption status recorded at the primary health care service within the previous 24 months.
Rationale:	It is important to collect information on alcohol consumption because excessive consumption is associated with health and social problems in all populations, including the Indigenous population.
Indicator set:	Indigenous primary health care key performance indicators (2012) Health , Superseded 23/02/2012

Collection and usage attributes

Population group age from:	15 years
Computation description:	Count of regular clients who are Indigenous, aged 15 years and over and who have had their alcohol consumption status recorded at the primary health care service within the previous 24 months. 'Regular client' refers to a client of an OATSIH-funded primary health care service (that is required to report against the Indigenous primary health care key performance indicators) who has an active medical record; that is, a client who has attended the OATSIH-funded primary health care service at least 3 times in 2 years. Alcohol consumption status has been recorded if the health service has either: a) A record of whether the client consumes alcohol or; b) A record specifying the amount and frequency of the client's alcohol consumption Results arising from measurements conducted outside of the service, that are known by the service, are included in the calculation of this indicator. Presented as a number.
Computation:	Numerator only.
Numerator:	Number of regular clients who are Indigenous, aged 15 years and over and who have had their alcohol consumption status recorded at the primary health care service within the previous 24 months.
