National Indigenous Reform Agreement: PI 27a- Proportion of Indigenous 20-64 year olds with or working towards a post-school qualification in Certificate level III or above, (Census data) 2012

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	PI 27a-Proportion of Indigenous 20-64 year olds with or working towards a post-school qualification in Certificate level III, 2012
METEOR identifier:	438744
Registration status:	Indigenous , Superseded 13/06/2013
Description:	Proportion of people aged 20–64 years with, or working towards, post-school qualifications in Australian Qualifications Framework (AQF) Certificate level III or above by Indigenous status.
Rationale:	Post secondary education leads to better employment prospects and for Indigenous persons will help to achieve the target to halve the gap in employment outcomes within a decade.
Indicator set:	National Indigenous Reform Agreement (2012) Indigenous , Superseded 13/06/2013
Outcome area:	The Indigenous workforce age population has the depth and breadth of skills and capabilities required for the 21st century labour market Indigenous , Standard 21/07/2010

Collection and usage attributes

Population group age from:	20 years
Population group age to:	64 years
Computation description:	Presentation: Number and percentage (per 100 persons).
Computation:	$100 \times (\text{Numerator} \div \text{Denominator})$.
Numerator:	People aged 20–64 years who have attained post school qualifications in AQF Certificate level III or above, or are currently studying a non-school qualification.

Data source type: Census

Comments:

NO NEW DATA FOR 2012 REPORTING.

Data sources for this indicator are:

- Main data collection: Census.
- Supplementary data collection: NATSISS (Indigenous); NATSIHS (Indigenous); and SEW (non-Indigenous).

The baseline report reported data from the 2006 Census as the main data collection and data from the 2008 NATSISS (Indigenous) and 2008 SEW (non-Indigenous) as the supplementary data collection. The next available data source will be the 2011-12 NATSIHS for the Indigenous population.

For persons 'with' a non-school qualification:

- Persons whose level of non-school qualification is determined to be certificate level but is not able to be further defined (i.e., Certificate nfd) are assumed to have attained below Certificate level III and are therefore excluded from the numerator for this indicator.
- Persons whose level of non-school qualification cannot be determined are assumed to have attained below Certificate level III and are therefore excluded from the numerator for this indicator.
- Census data exclude persons whose level of education was not stated (not applicable to survey data as there are no 'not stated' responses).

For persons 'working towards' a non-school qualification:

- Level of qualification is not available for people 'working towards' post school qualifications. Therefore, people working towards any non-school qualification are included in the calculations for this indicator.

At this stage, The Australian Bureau of Statistics (ABS) advises that information is only available on qualification levels for those who have completed studies (not those who are currently studying). Therefore, the ABS recommended restricting the definition for baseline reporting accordingly to those who have completed Certificate Level III or above, and those currently studying a non-school qualification.

Baseline year for NIRA target (Halve the gap in employment outcomes within a decade) is 2008; baseline year for this indicator is 2006; target year is 2018.

Representational attributes

Representation class: Percentage

Data type: Real

Unit of measure: Person

Indicator conceptual framework

Framework and dimensions: [Socioeconomic Factors](#)

Data source attributes

Data sources:

Data Source

Frequency

Every 5 years

Data custodian

Australian Bureau of Statistics

Accountability attributes

Organisation responsible for providing data: Australian Bureau of Statistics (ABS).

Further data development / collection required: Specification: Interim.

Data is required on the level of qualification for those currently studying (working towards a qualification).

The Australian Bureau of Statistics (ABS) is exploring options for collecting level and field of current study in future household surveys, commencing with the General Social Survey (GSS) 2010.
