Service provider organisation—preschool program attendance hours, total hours N[NNNN]

Exported from METEOR (AIHW's Metadata Online Registry)

Service provider organisation—preschool program attendance hours, total hours N[NNNN]

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Total hours of preschool program attended
METEOR identifier:	441275
Registration status:	Early Childhood, Superseded 28/05/2014
Definition:	The total number of hours of a **preschool program** that children attended at this service.
Data Element Concept:	Service provider organisation—preschool program attendance hours
Value Domain:	Total hours N[NNNN]

Value domain attributes

Representational attributes

Representation class:	Total
Data type:	Number
Format:	N[NNNN]
Maximum character length:	5
Unit of measure:	Hour (h)

Collection and usage attributes

Guide for use:	Total hours expressed as 0, 1, 2, 25, 60 etc.

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare

Data element attributes

Collection and usage attributes

Guide for use:	This item is a sum of the hours of all children attending a preschool program at this service. A child is defined as having attended a preschool program if they attended for at least one hour during the reference period. Children who were absent during the reference period due to illness or extended holiday leave should be excluded. Non-instructional times such as recess, tea breaks and lunch breaks should be included if the child was under the supervision of the service provider organisation. The hours attended may be less than or equal to the maximum number of hours available for children to attend the preschool program and/or the hours the child is enrolled, at the service in the reference period.

Collection methods:	The number of hours of a preschool program children attended should be collected for each preschool program available at the service. These data should then be aggregated to the service provider level for reporting purposes.

The total number of hours of a preschool program attended should be reported for the specified reference period.

Jurisdictions which adopt a two week reference period are required to derive their data to a representative reference week.
