Person—Team Care Arrangement (MBS Item 723) indicator, yes/no code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Team Care Arrangement (MBS Item 723) indicator
METEOR identifier:	441521
Registration status:	Health , Superseded 21/11/2013
Definition:	An indicator of whether a person has received a Team Care Arrangement (MBS Item 723), as represented by a code.
Data Element Concept:	Person—Team Care Arrangement (MBS Item 723) indicator
Value Domain:	Yes/no code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Boolean	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Yes
	2	No

Source and reference attributes

Submitting organisation:	Australian Institute of Health and Welfare
---------------------------------	--

Data element attributes

Collection and usage attributes

Guide for use:	CODE 1 Yes
	A person has received a Team Care Arrangement.
	CODE 2 No
	A person has not received a Team Care Arrangement.

Comments:

The Chronic Disease Management Medicare items on the Medicare Benefits Schedule (MBS) enable GPs to plan and coordinate the health care of patients with chronic or terminal medical conditions, including patients with these conditions who require multidisciplinary, team-based care from a GP and at least two other health or care providers. The items are designed for patients who require a structured approach to their care. A 'chronic medical condition' is one that has been or is likely to be present for at least six months, including but not limited to asthma, cancer, cardiovascular disease, diabetes mellitus and musculoskeletal conditions (Department of Health and Ageing 2011a).

Team Care Arrangements (TCAs) are required by legislation to include a document that describes:

- treatment and service goals for the patient
- treatment and services that collaborating providers will provide to the patient
- actions to be taken by the patient
- a date to review these matters (Department of Health and Ageing 2011b).

This chronic disease management service is for a patient who:

(a) has at least one medical condition that:

- i. has been (or is likely to be) present for at least six months; or
- ii. is terminal; and

(b) requires ongoing care from at least three collaborating health or care providers, each of whom provides a different kind of treatment or service to the patient, and at least one of whom is a medical practitioner (Department of Health and Ageing 2011c).
