**Comments:**

Data availability:

SIH — 2007-08

NATSISS — 2008

Social housing – 2007-08 (baseline data), 2009-10

Amendments from first cycle of reporting.

The CRC requested that: from first cycle of

- the measure be refined to exclude non-renter households, in order to reporting: better measure performance against the outcome
- low-income households be defined as those in the bottom 40 per cent of equivalised disposable household income
- governments develop a consistent measure of affordability among social housing tenants (all types), to supplement the survey data used to report against this outcome

Data will be backcast for the baseline to reflect the changes above.
