

# National Healthcare Agreement: PI 19-Infant and young child mortality rate, 2012

## Identifying and definitional attributes

<b>Metadata item type:</b>	Indicator
<b>Indicator type:</b>	Progress measure
<b>Short name:</b>	PI 19-Infant and young child mortality rate, 2012
<b>METEOR identifier:</b>	443683
<b>Registration status:</b>	<ul style="list-style-type: none"><li>• <a href="#">Health</a>, Superseded 25/06/2013</li></ul>
<b>Description:</b>	Mortality rates for infants and children aged less than 5 years.
<b>Indicator set:</b>	<a href="#">National Healthcare Agreement (2012)</a> <a href="#">Health</a> , Superseded 25/06/2013
<b>Outcome area:</b>	<a href="#">Primary and Community Health</a> <a href="#">Health</a> , Standard 07/07/2010
<b>Quality statement:</b>	<a href="#">National Healthcare Agreement: PI 19-Infant and young child mortality rate, 2012</a> <a href="#">QS</a> Health, Superseded 14/01/2015

## Collection and usage attributes

<b>Population group age from:</b>	This indicator uses a number of different population group age lower bounds: <ul style="list-style-type: none"><li>• For infants: Less than 1 year of age</li><li>• For children aged 1-4 years: 1 year of age</li><li>• For children aged 0-4 years: Less than 1 year of age</li></ul>
<b>Population group age to:</b>	This indicator uses a number of different population group age upper bounds: <ul style="list-style-type: none"><li>• For infants: Less than 1 year of age</li><li>• For children aged 1-4 years: Less than 5 years of age</li><li>• For children aged 0-4 years: Less than 5 years of age</li></ul>

**Computation:**

Infants (<1 year old): 1,000 x (Numerator ÷ Denominator)

Children (1–4 year olds): 100,000 x (Numerator ÷ Denominator)

Children (0–4 year olds): 100,000 x (Numerator ÷ Denominator)

Calculated separately for each of the three age groups, and for all Australians, Indigenous and non-Indigenous Australians.

Variability bands are to be calculated for single-year rates using the following method for estimating 95% confidence intervals:

*Crude rate*

$$CI (CR)_{95\%} = CR \pm 1.96 \times \frac{CR}{\sqrt{\sum_{i=1}^n d}}$$

Where *d*=the number of deaths in the relevant age-group

Presented as:

- number of deaths per 1,000 live births (infant)
- number of deaths per 100,000 population (child).

**Numerator:**

- Number of deaths among infants (aged < 1 year)
- Number of deaths among children aged 1–4 years
- Number of deaths among children aged 0–4 years

**Numerator data elements:****Data Element / Data Set**

[Person—age, total years N\[NN\]](#)

**Data Source**

[ABS Death Registrations Collection](#)

**Guide for use**

Data source type: Administrative by-product data

**Denominator:**

- Number of live births; and
- Population aged 1–4 years; and
- Population aged 0–4 years

**Denominator data elements:**

**Data Element / Data Set**

**Data Element**

Person—estimated resident population of Australia

**Data Source**

[ABS Estimated resident population \(total population\)](#)

**Guide for use**

Data source type: Census-based plus administrative by-product data  
Used for the denominator for the mortality rate for children aged 1-4 years, and as a component of the denominator for the mortality rate for children aged 0-4 years.

**Data Element / Data Set**

**Data Element**

Person—estimated resident population of Australia

**Data Source**

[ABS Indigenous experimental estimates and projections \(2001 Census-based\)](#)

**Guide for use**

Data source type: Census-based plus administrative by-product data  
Used for the denominator for the mortality rate for Indigenous children aged 1-4 years, and as a component of the denominator for the mortality rate for Indigenous children aged 0-4 years.

**Data Element / Data Set**

**Data Element**

Person—estimated resident population of Australia

**Data Source**

[ABS Census of Population and Housing Post-Enumeration Survey](#)

**Guide for use**

Data source type: Census-based plus administrative by-product data

**Data Element / Data Set**

[Birth—birth status, code N](#)

**Data Source**

[ABS birth registration data](#)

**Guide for use**

Data source type: Administrative by-product data  
Used as the main component of the denominator for the infant mortality rate.  
Include live births only, i.e. value = 1.

**Disaggregation:**

2008–10— State and territory (total population)

2006–10— State and territory, by Indigenous status

2007, 2008, 2009 (resupplied with variability bands) and 2010— Nationally (infants and 0–4 years)

Some disaggregations may result in numbers too small for publication. Disaggregation by Indigenous status will be based on data only from jurisdictions for which the quality of Indigenous identification is considered acceptable - NSW, Qld, WA, SA and NT.

**Disaggregation data elements:**

**Data Element / Data Set**

[Person—Indigenous status, code N](#)

**Data Source**

[ABS Death Registrations Collection](#)

**Guide for use**

Data source type: Administrative by-product data

**Data Element / Data Set**

[Person—age, total years N\[NN\]](#)

**Data Source**

[ABS Death Registrations Collection](#)

**Guide for use**

Data source type: Administrative by-product data

**Data Element / Data Set**

[Person—area of usual residence, geographical location code \(ASGC 2006\) NNNNN](#)

**Data Source**

[ABS Death Registrations Collection](#)

**Guide for use**

Data source type: Administrative by-product data

Used for disaggregation by state/territory

**Comments:** Most recent data available for 2012 CRC report:

- 2010 (released Nov 2011)
- 2008–10 (Total population)
- 2006–2010 (Indigenous status).

Because of small numbers of deaths each year data are presented in 3 (total population) or 5-year (Indigenous population) groupings (state and territory only).

Single year data (2010) will be reported for time series analysis (national level only for infant and child 0–4 years).

Data by remoteness may be available, pending assessment of data quality.

For further detailed analysis by Indigenous status see the National Indigenous Reform Agreement (NIRA) report.

Further details (including data for 2002–06) available from the Aboriginal and Torres Strait Islander Health Performance Framework (Indicator 1.19).
