Data element attributes

Collection and usage attributes

Guide for use:	<p>Record the date on which a person with cancer was referred to palliative care services.</p> <p>Referral to palliative care will generally come from a person with cancer's primary treatment clinician or GP.</p> <p>If the patient is receiving palliative care but no referral date can be identified, record the date of the first account of receipt of palliative care as the date of referral.</p> <p>Referral to palliative care services is referral to palliative care administered by palliative care specialists such as a palliative care team or palliative physician. Palliative care may be administered in a community setting, for example, the patient's home or a nursing home, in the palliative care unit of an acute hospital, or a hospice.</p> <p>The date of referral must be:</p> <ul style="list-style-type: none">• greater than or equal to the date of diagnosis;• greater than the date of birth; and• less than or equal to the date of death.
-----------------------	---

Collection methods:	This information should be sought from the patient's medical record.
----------------------------	--

Comments: This information is used to evaluate the quality of care for patients with cancer, and may have implications for access to, and the provision of, cancer services.
