Household—household composition, housing assistance code N

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Household composition (housing assistance)
METEOR identifier:	455623
Registration status:	Housing assistance , Superseded 30/08/2017
Definition:	The composition of the household in a housing assistance collection, based on the relationship between household members, as represented by a code.

Data element concept attributes

Identifying and definitional attributes

Data element concept:	Household—household composition
METEOR identifier:	303379
Registration status:	Housing assistance , Superseded 30/08/2017
Definition:	The composition of the household based on the relationship between household members. Households can contain dependent and non-dependent family members as well as non-family members. The differentiation of households is based on the presence or absence of couple relationships, parent-dependant relationships or other blood relationships.
Context:	Together with 'family', household is considered one of the basic groups of social aggregation. Information on household numbers and composition aids in identifying groups within the population such as Indigenous households or the number of people living alone.
Object class:	Household
Property:	Household composition

Value domain attributes

Identifying and definitional attributes

Value domain:	Housing assistance household composition code N
METEOR identifier:	455375
Registration status:	Housing assistance , Superseded 30/08/2017
Definition:	A codeset representing the composition of a household in housing assistance collections, based on the relationship between household members.

Representational attributes

Representation class:	Code	
Data type:	String	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Single

	2	Sole parent with child/ren aged less than 16 years
	3	Couple only
	4	Couple with child/ren aged less than 16 years
	5	Family (with other family members present including children aged 16 years and over)
	6	Family (with other non-related members present)
	7	Group (unrelated adults)
Supplementary values:	9	Not stated/inadequately described

Data element attributes

Collection and usage attributes

Comments: It should be noted that only usual residents of a household are considered when describing and categorising households by Household type. Visitors to a household are, by definition, excluded from the household. Usual residence of members of a household is defined as '...that address at which the person has lived or intends to live for a total of 6 months or more' (Census Dictionary 1996).
