Data element attributes

Collection and usage attributes

Guide for use:	Not applicable should be used if unborn children are not covered by the relevant child protection legislation.
Comments:	<p>There are cases where the safety of a child is brought to the attention of child protection authorities before that child is born. While s/he is yet to be born, there are considerable concerns about the safety of the child.</p> <p>This data element is designed to flag that the client is not yet born. This data element may assist with the record linkage processes, and will also provide valuable data on welfare concerns of unborn children.</p>
