Identifying and definitional attributes

Metadata item type: Data Set Specification

METEOR identifier: 459886

Registration status: [Housing assistance](#), Superseded 30/08/2017

DSS type: Data Element Cluster

Scope: The Household cluster describes one record for all households assisted during the financial year, irrespective of whether they are ongoing at 30 June or ceased assistance before 1 July (of the same calendar year).

Records requested:

Include:

- 1 record per *Household—household identifier, X[X(14)]*
- 1 household per rental tenancy unit
- Households residing in [dwellings headleased from private market](#) or [government programs](#) used to house public rental housing and State owned and managed Indigenous housing (SOMIH) households and managed by the jurisdiction.

Exclude:

- Households residing in dwellings owned but not administered by the jurisdiction (e.g. leased to other program areas and not administered by state housing authority).

Collection and usage attributes

Statistical unit: [Dwellings](#) and [Households](#)

Collection methods: Data qualifications:

- All newly allocated households should have a WAITID and application date if they were waitlisted (i.e., not directly tenanted).
- End date should be blank for any household who ceased assistance after 30 June or for any household who is still receiving assistance at point of extraction.
- Descriptors at 30 June include those households with an end date of 30 June and those with a blank end date.

Comments: Refer to the collection period of the data set to determine the reference year for this cluster.

- [Service event—tenancy end date, DDMMYYYY](#)

Mandatory 1

DSS specific information:

This metadata item is used in calculation of measures of periods of support and duration of assistance and for measuring various point in time data.

The date on which provision of housing assistance by an agency was completed, ceased or terminated.

This metadata item should always be recorded as an 8 digit valid date comprising day, month and year. Year should always be recorded in its full 4 digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, if an episode is completed on July 1 2002 date should be recorded as 01072002.

Tenancy end date must be related to a particular housing assistance episode. For each separate housing assistance episode a separate date should be recorded.

For the public rental housing and state owned and managed Indigenous housing data collections the tenancy end date should be taken from the date specified on the tenancy agreement. Tenants may actually move out prior to this date.

- [Service event—tenancy start date, DDMMYYYY](#)

Mandatory 1

DSS specific information:

This metadata item is used in calculation of measures of periods of support and duration of assistance and for measuring various point in time data.

The date on which the provision of housing assistance to a household by an agency commenced, as distinct from the date the household applies and is entered on the waiting list or assessed for eligibility. The date recorded should be the date on which the client has begun to receive some form of assistance.

This metadata item should always be recorded as an 8-digit valid date comprising day, month and year. Year should always be recorded in its full 4-digit format. For days and months with a numeric value of less than 10, zeros should be used to ensure that the date contains the required 8 digits. For example, if an episode starts on July 1 2000 the date should be recorded as 01072000.

For each separate tenancy, a separate start date should be recorded. Same address transfers, mutual exchanges and succession of tenancy of dwellings are not considered separate housing assistance events.

For the public rental housing and state owned and managed Indigenous housing data collections the tenancy start date should be taken from the date specified on the tenancy agreement. Tenants may actually move in at a later date than this date.
