Person—country of birth, code (SACC 2011) NNNN

Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Country of birth
METEOR identifier:	459973
Registration status:	Community Services (retired) , Standard 13/10/2011 Disability , Standard 07/10/2014 Health , Superseded 06/12/2016 Homelessness , Superseded 10/08/2018 Housing assistance , Standard 13/10/2011 Independent Hospital Pricing Authority , Standard 01/11/2012 Tasmanian Health , Superseded 08/03/2017 WA Health , Standard 19/03/2015 Youth Justice , Superseded 23/08/2022
Definition:	The country in which the person was born, as represented by a code.
Data Element Concept:	Person—country of birth
Value Domain:	Country code (SACC 2011) NNNN

Value domain attributes

Representational attributes

Classification scheme:	Standard Australian Classification of Countries 2011
Representation class:	Code
Data type:	Number
Format:	NNNN
Maximum character length:	4

Collection and usage attributes

Guide for use:	<p>The Standard Australian Classification of Countries 2011 (SACC) is a four-digit, three-level hierarchical structure specifying major group, minor group and country.</p> <p>A country, even if it comprises other discrete political entities such as states, is treated as a single unit for all data domain purposes. Parts of a political entity are not included in different groups. Thus, Hawaii is included in Northern America (as part of the identified country United States of America), despite being geographically close to and having similar social and cultural characteristics as the units classified to Polynesia.</p>

--------------------------	--

Data element attributes

Collection and usage attributes

Collection methods: Some data collections ask respondents to specify their country of birth. In others, a pre-determined set of countries is specified as part of the question, usually accompanied by an 'other (please specify)' category.

Recommended questions are:

In which country were you/was the person/was (name) born?

Australia

Other (please specify)

Alternatively, a list of countries may be used based on, for example common Census responses.

In which country were you/was the person/was (name) born?

Australia

England

New Zealand

Italy

Vietnam

India

Scotland

Philippines

Greece

Germany

Other (please specify)

In either case coding of data should conform to the SACC.

Sometimes respondents are simply asked to specify whether they were born in either 'English speaking' or 'non-English speaking' countries but this question is of limited use and this method of collection is not recommended.

Comments:

This metadata item is consistent with that used in the [ABS collection methods](#) and is recommended for use whenever there is a requirement for comparison with ABS data (last viewed 2/6/2008).
