Data Element Concept:	Cancer treatment—specialist support services indicator
Value Domain:	Yes/no/unknown code N

Value domain attributes

Representational attributes

Representation class:	Code	
Data type:	Number	
Format:	N	
Maximum character length:	1	
	Value	Meaning
Permissible values:	1	Yes
	2	No
Supplementary values:	8	Unknown

Data element attributes

Collection and usage attributes

Guide for use:	Record whether the patient used specialist support services as part of their care during a round of treatment for cancer. Specialist support services include community services, allied health services and other hospital support service, such as the use of psychiatrists, psychologists, physiotherapists, social workers, specialist nurses/nurse counsellors, cancer support or volunteer support groups, individual peer support services, counsellor/bereavement counsellor and pastoral care workers.
Collection methods:	This information should be sought from the patient's medical record or collected in multi-disciplinary team meetings.
Comments:	This information is used to evaluate the quality of care for patients with cancer, and may have implications for access to, and the provision of, cancer services.
