# Shared care arrangement indicator

## Identifying and definitional attributes

**Metadata item type:** Property

**METEOR identifier:** 462731

**Registration status:** [Health](#), Standard 04/02/2015

**Definition:** An indicator of whether shared care arrangement is in place. A shared care arrangement is an agreement between specialists/hospitals and primary health practitioners to provide care for a specific health condition. This often involves a formal agreement between practitioners which includes the planned delivery of care and information exchange above routine referral notices.
