Definition: A code set representing 'yes' and 'no'.

Representational attributes

Representation class: Code

Data type: Boolean

Format: N

Maximum character length: 1

Permissible values:

Value	Meaning
-------	---------

1	Yes
---	-----

2	No
---	----

Data element attributes

Collection and usage attributes

Guide for use: CODE 1 Yes

A person has a cardiovascular disease recorded on their clinical record.

CODE 2 No

A person does not have a cardiovascular disease recorded on their clinical record.

Heart disease encompasses a range of diseases that affect the heart, and individual diseases are classified as heart disease or not by Patient Information Retrieval (PIRS) systems.
