Locality

Identifying and definitional attributes

Metadata item type:	Glossary Item
METEOR identifier:	467428
Registration status:	Commonwealth Department of Health, Qualified 23/09/2015 Health, Superseded 06/09/2018
Definition:	A population cluster of between 200 and 999 people.
Context:	Localities, together with Urban Centres, make up the Urban Centre/Locality (UC/L) Structure maintained by the Australian Bureau of Statistics (ABS) as part of the Australian Standard Geographical Classification (ASGC). An **Urban Centre** is a population cluster of more than 1,000 people. For statistical purposes, people living in Urban Centres are classified as urban while those in Localities are classified as rural.
