Data element attributes

Collection and usage attributes

Guide for use:	<p>Record the date of any immediate or short-term treatment complication that has been experienced by a patient during or after medical treatment. This includes any adverse events taking place within a specified period after treatment. The date recorded should be the earliest date that the specific treatment complication is indicated.</p> <p>Multiple dates can be recorded, but only one date should be recorded per treatment complication.</p>
Collection methods:	Collect from patient medical records.
