Accountability attributes

Reporting requirements:

Data Source Numerator:

ABS Survey of Disability, Ageing and Carers (SDAC), 2009

(Indigenous): NATSISS, 2008.

Data Source Denominator:

ABS Survey of Disability, Ageing and Carers (SDAC), 2009

(Indigenous): NATSISS, 2008.

Organisation responsible for providing data: Australian Bureau of Statistics.

Benchmark: Related NDA benchmark - Performance benchmark (a) An increase in the proportion of people with disability in employment.

| **Other issues caveats:** | Available disaggregation depends on sampling errors and other caveats. |
| | |

SDAC does not collect labour force participation information for persons in cared accommodation. Data are available for private dwelling and non-cared accommodation special dwellings only.

2012 report

- 2009 SDAC is the latest available source for data about the labour force participation rate of people with disability.

- 2009 SDAC does not provide this data for the Indigenous population, therefore Indigenous data needs to be taken from a different source (e.g. NATSISS 2008).

- The NATSISS uses an abbreviated form of the Disability Module, which is less detailed than the SDAC.

- 'Not disabled' is a category in the 'Disability status' variable, so data comparable the disabled and non-disabled populations are available in the disaggregation's listed above.
