

# Care coordinator assignment indicator

## Identifying and definitional attributes

**Metadata item type:** Property  
**METEOR identifier:** 467844  
**Registration status:**

- [Health](#), Standard 04/02/2015

**Definition:** An indicator of whether a care coordinator has been assigned.

The role of a care coordinator is to achieve continuity of care and to ensure that care is delivered in a timely, logical and connected fashion so that both medical and personal needs are met.

The assignment of a care coordinator is an indicator of the method of care that is being received.
