# Person—area of usual residence, statistical area level 2 (SA2) code (ASGS 2011) N(9)

## Identifying and definitional attributes

Metadata item type:	Data Element
Short name:	Area of usual residence (SA2)
METEOR identifier:	469909
Registration status:	<a href="#">Community Services (retired)</a> , Standard 10/04/2013 <a href="#">Disability</a> , Standard 13/08/2015 <a href="#">Early Childhood</a> , Superseded 24/07/2018 <a href="#">Health</a> , Superseded 06/12/2016 <a href="#">Independent Hospital Pricing Authority</a> , Standard 01/11/2012 <a href="#">Tasmanian Health</a> , Superseded 27/06/2017 <a href="#">WA Health</a> , Standard 19/03/2015
Definition:	The geographical region in which a person or group of people usually reside, as represented by a code.
Data Element Concept:	<a href="#">Person—area of usual residence</a>
Value Domain:	<a href="#">Statistical area level 2 (SA2) code (ASGS 2011) N(9)</a>

## Value domain attributes

## Representational attributes

Classification scheme:	<a href="#">Australian Statistical Geography Standard 2011</a>
Representation class:	Code
Data type:	String
Format:	N(9)
Maximum character length:	9

## Collection and usage attributes

Guide for use:	SA2 coding structure:  An SA2 is identifiable by a 9-digit fully hierarchical code. The SA2 identifier is a 4-digit code, assigned in alphabetical order within an SA3. An SA2 code is only unique within a state/territory if it is preceded by the state/territory identifier.
----------------	--

For example:

State/territory	SA4	SA3	SA2
N	NN	NN	NNNN

Comments:	There are 2,196 SA2 spatial units. In aggregate, they cover the whole of Australia without gaps or overlaps. Jervis Bay Territory, the Territory of the Cocos (Keeling) Islands and the Territory of Christmas Island are each represented by an SA2.
-----------	---

## Source and reference attributes

Origin:	1270.0.55.001 - Australian Statistical Geography Standard (ASGS): Volume 1 - Main Structure and Greater Capital City Statistical Areas, July 2011 <a href="http://www.abs.gov.au/AUSSTATS/abs@.nsf/DetailsPage/1270.0.55.001July%202011?OpenDocument">http://www.abs.gov.au/AUSSTATS/abs@.nsf/DetailsPage/1270.0.55.001July%202011?OpenDocument</a>
---------	--

# Data element attributes

## Collection and usage attributes

<b>Guide for use:</b>	The geographical location is reported using a nine digit numerical code to indicate the Statistical Area (SA) within the reporting state or territory, as defined in the Australian Statistical Geography Standard (ASGS) (Australian Bureau of Statistics (ABS), catalogue number 1270.0.55.001).
<b>Collection methods:</b>	When collecting the geographical location of a person's usual place of residence, the ABS recommends that 'usual' be defined as: 'the place where the person has or intends to live for 6 months or more, or the place that the person regards as their main residence, or where the person has no other residence, the place they currently reside.' Apart from collecting a person's usual place of residence there is also a need in some collections to collect area of residence immediately prior to or after assistance is provided, or at some other point in time.
<b>Comments:</b>	<p>Geographical location is reported using Statistical Area to enable accurate aggregation of information to larger areas within the ASGS as well as detailed analysis at the SA2 level. The use of SA2 also allows analysis relating the data to information compiled by the ABS on the demographic and other characteristics of the population of each SA2. Analyses facilitated by the inclusion of SA2 information include:</p> <ul style="list-style-type: none"><li>• comparison of the use of services by persons residing in different geographical areas;</li><li>• characterisation of catchment areas and populations for establishments for planning purposes; and</li><li>• documentation of the provision of services to residents of states or territories other than the state or territory of the provider.</li></ul>

**DSS specific information:**

The following codes should be assigned as the admitted patient's area of usual residence in the following specialised situations:

- Overseas resident: 099999299
- No fixed abode: state/territory identifier + 99999499
  - Where the state/territory of the admitted patient's usual residence is not known, assign '0' as the state/territory identifier
- Migratory - Offshore - Shipping: state/territory identifier + 97979799
- Unknown SA2: state/territory identifier + 99999999
  - Where the state/territory of the admitted patient's usual residence is not known, assign a blank space as the state/territory identifier
