

# Non-admitted patient emergency department service episode—triage category

<b>Metadata item type:</b>	Data Element Concept
<b>METEOR identifier:</b>	474183
<b>Registration status:</b>	<ul style="list-style-type: none"><li>• <a href="#">Health</a>, Superseded 05/10/2016</li><li>• <a href="#">Independent Hospital Pricing Authority</a>, Standard 31/10/2012</li><li>• <a href="#">National Health Performance Authority (retired)</a>, Retired 01/07/2016</li><li>• <a href="#">Tasmanian Health</a>, Superseded 25/05/2020</li></ul>
<b>Definition:</b>	The urgency of the patient's need for medical and nursing care.
<b>Context:</b>	Emergency department care:  Required to provide data for analysis of emergency department processes.

## Object Class attributes

### Identifying and definitional attributes

<b>Object class:</b>	<a href="#">Non-admitted patient emergency department service episode</a>
<b>Definition:</b>	The treatment or care between when a patient presents at an <a href="#">emergency department</a> and when the non-admitted patient emergency department clinical care ends.
<b>Context:</b>	Emergency department care.
<b>Specialisation of:</b>	<a href="#">Service episode</a>

### Collection and usage attributes

<b>Guide for use:</b>	<p>Includes patients who do not wait for treatment once registered or <a href="#">triaged</a>, and those who are dead on arrival.</p> <p>Both a non-admitted patient emergency department service episode and an admitted patient episode of care should be recorded for patients who subsequently undergo a formal admission. The end of the non-admitted patient emergency department service episode should indicate the commencement of the admitted episode of care, if applicable.</p> <p>A non-admitted patient emergency department service episode ends when either the patient is admitted or, if the patient is not to be admitted, when the patient's emergency department non-admitted clinical care is recorded as completed, or when they are recorded as having left at their own risk.</p>
<b>Comments:</b>	This metadata item has been defined to support the national minimum data set for Non-admitted patient emergency department care.

### Source and reference attributes

<b>Submitting organisation:</b>	National reference group for non-admitted patient data development, 2001-02
