Guide for use:

The episode end status should guide the selection of the value to be recorded in this field:

•

- If the service episode is completed without the patient being admitted, then
 record the time the patient's emergency department non-admitted clinical
 care ended.
- If the service episode is completed and the patient is referred to another hospital for admission, then record the time the patient leaves the emergency department.

_

 If the patient was dead on arrival, then record the time the body was removed from the emergency department. If an emergency department physician certified the death of the patient outside the emergency department, then

Collection methods: Collected in conjunction with emergency department physical departure date.

record the time the patient was certified dead.

Comments: This data element has been developed for the purpose of State and Territory

compliance with the Australian Health Care Agreement and the agreed national

access performance indicator.
