National Disability Agreement: b(3)-Proportion of people with disability who participate in social and community activities, 2012

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Indicator
Short name:	Proportion of people with disability who participate in social and community activities, 2012
METEOR identifier:	475222
Registration status:	Community Services (retired) , Superseded 23/05/2013
Description:	The proportion of persons with disability aged 5-64 years who report the main reason for not leaving home as often as they would like is their disability or condition.
Indicator set:	National Disability Agreement (2012) Community Services (retired) , Superseded 23/05/2013
Outcome area:	People with disability achieve economic participation and social inclusion Community Services (retired) , Standard 23/07/2010 Disability , Standard 13/08/2015

Collection and usage attributes

Population group age from:	5 years
Population group age to:	64 years
Computation description:	Number of people aged 5-64 years with disability who report the main reason for not leaving home as often as they would like is their disability or condition.
Computation:	$R/N \times 100$ Where R = number of persons aged 5–64 with disability report the main reason for not leaving home as often as they would like is their disability or condition, and N = total number of persons with disability aged 5–64 years
Numerator:	Number of persons aged 5–64 years with disability who report the main reason for not leaving home as often as they would like is their disability or condition.
Numerator data elements:

Disaggregation:

By state/territory

- Disability status (has profound or severe disability, other disability or restrictive long term health condition, total with disability, has no disability, total)

(All with reported disability 5–64 years by state/territory)

- Sex (male, female, persons)
- Age group (5–14, 15–24, 25–34, 35–44, 45–54, 55–64, total 15–64)
- Remoteness Area (Major Cities, Inner Regional, total)
- Country of birth (Australia, other English speaking countries, all English speaking countries, non-English speaking countries, total (including inadequately described))
- English proficiency (no detail provided)
- Sex by age group (where possible)
- Indigenous people by state/territory.

Data Source

[ABS General Social Survey \(GSS\), 2006](#)

Accountability attributes

Reporting requirements: SDAC 2009 for all data except Indigenous; NATSISS 2008 for Indigenous data; General Social Survey (GSS) 2006 for comparison data.

Organisation responsible for providing data:	Australian Bureau of Statistics with input from AIHW on social and community activities in scope.
Benchmark:	n/a.
Other issues caveats:	<p>Available disaggregation depends on sampling errors and other caveats.</p> <p>Reporting issues are the same as listed in performance indicator a.</p> <p>SDAC data are collected every three years.</p> <p>2009 SDAC does not provide this data for the Indigenous population, therefore Indigenous data needs to be taken from a different source (e.g. NATSISS 2008).</p> <p>The NATSISS uses an abbreviated form of the Disability Module, which is less detailed than the SDAC.</p> <p>Social and community activities as defined in the NATSISS are more culturally appropriate for Indigenous Australians than those in the SDAC.</p> <p>Comparison data for the non-disabled population is only available for the first of these performance indicators, from the General Social Survey 2006, and then only for adults.</p>
