

State owned and managed Indigenous housing (SOMIH) DSS 2010-11

Identifying and definitional attributes

Metadata item type: Data Set Specification

METEOR identifier: 480332

Registration status:

- [Housing assistance](#), Superseded 01/05/2013

DSS type: Data Set Specification (DSS)

Scope: The purpose of the State owned and managed Indigenous housing (SOMIH) data set specification is to describe information about tenants in SOMIH dwellings covered by the National Affordable Housing Agreement (NAHA). Included are households residing in SOMIH dwellings where the dwelling is either:

owned by the housing authority; or leased from the private sector or other housing program areas and used for provision of public rental housing.

SOMIH dwellings leased to other program areas such as community housing or crisis and emergency accommodation programs are not included in this collection.

Dwellings no longer under the administration of the property manager/agency at 30 June 2011, (including dwellings demolished, sold or disposed of) and dwellings not yet available to the property manager/agency at 30 June 2011, (such as those still under construction or being purchased) are excluded.

Collection and usage attributes

Statistical unit: Persons, Households, [Dwellings](#) and Vacancy episodes.

Guide for use: All jurisdictions are asked to supply the single/couple codes in 2010–11 data extractions. Previously, a household's bedroom requirement has been calculated using the Proxy Occupancy Standard (POS), however under NAHA reporting requirements, the match of a dwelling to household size is based on Canadian National Occupancy Standard (CNOS).

New low income cut-off measures for low income households based on new definition under NAHA.

Collection methods: State and territory housing authorities provide the data to the Australian Institute of Health and Welfare for national collation on an annual basis.

Include:

- Dwellings headleased from private market or other programs and managed by the jurisdiction.

Exclude:

- Dwellings no longer under the administration of the property manager/agent at 30 June 2011.
- Dwellings not yet available to the property manager/agency at 30 June 2011, such as those still under construction or being purchased
- Dwellings owned but not administered by the jurisdiction (e.g. leased to other program areas and not administered by state housing authority).

Data qualifications:

- Bedsits are to be reported as 1 bedroom AND counted as 1 bedroom for performance indicator calculations
- Occupied dwellings can be tenantable or untenable.

Implementation start date: 01/07/2010

Implementation end date: 30/06/2011

Comments: In the 2010-11 collection the following changes have been made to the data set specification:

- In the Dwelling history file: the data items VACRSN, VADCESC and VACTYPE have been retired and replaced by a new variable VAC_DDV which is populated with a standard set of vacancy reason codes.
- In the Person income file: the data items INC_TYPE and INC_DESC have been retired.
