Prison clinic contact NBEDS

Identifying and definitional attributes

Metadata item type:	Data Set Specification
METEOR identifier:	482314
Registration status:	Health , Standard 28/04/2016
DSS type:	Data Set Specification (DSS)
Scope:	The Prison clinic contact National Best Endeavours Data Set (NBEDS) defines visits by prisoners to the prison clinic during the National Prisoner Health Data Collection period.

Collection and usage attributes

Statistical unit:	The two statistical units in this data set are the Health Service Event and the Person . In the Prison clinic contact NBEDS person refers to the prisoner attending the prison clinic.
Guide for use:	The Prison clinic contact NBEDS is a component of the Prisoner health NBEDS. The Prisoner health NBEDS defines data about public and private prisons operating in Australia. It includes data on prison entrants, prison dischargees, prisoners who visit a prison clinic or take prescribed medication while in custody, prison clinic services and prison clinic staffing levels. In this NBEDS, a 'visit' is defined as a face-to-face consultation for which an entry is made in the health service record (other than for routine household-type treatments such as band-aids or paracetamol).
Collection methods:	Information on clinic visits is provided by the treating health professional at the clinic using the Prisoners in Custody—Clinic form. One form is to be completed for each clinic contact.
