Data element attributes

Collection and usage attributes

Guide for use:	Opiate substitution program refers to a program for opiate addicts which aims to: • reduce the harm associated with drug use; • improve overall quality of life; and • ease the discomfort of withdrawing from heroin. It includes both: • maintenance (or long term) programs, where the goal is to reduce the harm associated with drug use and to improve overall quality of life; and • withdrawal (or short term) programs, where methadone is used to ease the discomfort of withdrawing from heroin.
