National Indigenous Reform Agreement: PI 12b-Attainment of Year 12 or equivalent (survey data), 2013

Identifying and definitional attributes

Metadata item type: Indicator Indicator type: Indicator

Short name: PI 12b-Attainment of Year 12 or equivalent (survey data), 2013

METEOR identifier: 484364

Registration status: <u>Indigenous</u>, Superseded 13/12/2013

Description: The indicator has two measures:

a) Proportion of the 20-24 year old population having attained at least a Year 12 or

equivalent or Australian Qualifications Framework (AQF) Certificate level II.

b) Year 12 certification.

Indicator set: National Indigenous Reform Agreement (2013)

Indigenous, Superseded 13/12/2013

Outcome area: Schooling promotes social inclusion and reduces the educational disadvantage of

children, especially Indigenous children Indigenous, Superseded 01/07/2016

Collection and usage attributes

Population group age

from:

20 years

Population group age to: 24 years

Computation description: Presentation: Number and percentage.

Relative standard errors and 95% confidence intervals calculated for numbers and

proportions.

Computation: 100 x (Numerator ÷ Denominator).

Numerator: a) People aged 20–24 years who have completed Year 12 or whose level of

highest non-school qualification is at AQF Certificate level II or above.

b) Measure is yet to be developed.

Numerator data elements:

Data Element / Data Set

Person—age, total years N[NN]

Data Source

ABS 2008 National Aboriginal and Torres Strait Islander Social Survey (NATSISS)

Guide for use

Data source type: Survey

Data source type: Survey

Comments: For a):

The most recent data available is the 2008 NATSISS.

Data sources for this indicator are:

• NATSISS (Indigenous); NATSIHS (Indigenous); and SEW (non-Indigenous).

The baseline report reported data from the 2008 SEW (non-Indigenous) as the supplementary data collection. The next available data source will be the 2011-12 NATSIHS for the Indigenous population.

Persons whose level of study is determined to be certificate level but is not able to be further defined (i.e., Certificate nfd) are assumed to have attained below Certificate level II and are therefore excluded from the numerator.

People whose level of study cannot be determined are assumed to be have attained below Certificate II and are therefore excluded from the numerator.

Prior to 2010, the Survey of Work and Education (SEW) did not include people living in very remote areas. From 2010 onwards, the SEW does not include people living in Indigenous communities in very remote areas. Whilst a reduced scope, this may still affect the comparability of results.

The size of the standard errors mean that SEW data may not be adequate for measuring change over time.

Baseline year for NIRA target (Halve the gap in Year 12 or equivalent attainment rates by 2020) is 2008; baseline year for this measure is 2008; target year is 2020.

For b):

No data is available for reporting for measure b) for the 2013 reporting cycle, as this measure is yet to be developed.
