National Disability Agreement: b(1)-Proportion of people with disability who had face-to-face contact with ex-household family or friends in the previous week, 2013

Exported from METEOR (AIHW's Metadata Online Registry)

National Disability Agreement: b(1)-Proportion of people with disability who had face-to-face contact with ex-household family or friends in the previous week, 2013

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	Proportion of people with disability who had face-to-face contact with ex-household family or friends in the previous week, 2013
METEOR identifier:	491931
Registration status:	Community Services (retired), Standard 23/05/2013 Disability, Standard 13/08/2015
Description:	Proportion of people with disability aged 15-64 years who have had face-to-face contact with ex-household family or friends in the previous week
Indicator set:	National Disability Agreement (2013) Community Services (retired), Standard 23/05/2013 Disability, Standard 13/08/2015
Outcome area:	People with disability achieve economic participation and social inclusion Community Services (retired), Standard 23/07/2010 Disability, Standard 13/08/2015

Collection and usage attributes

Population group age from:	15 years
Population group age to:	64 years
Computation description:	Number of persons aged 15-64 years with disability who had face-to-face contact with ex-household family or friends in the previous week, divided by total number of persons with disability aged 15–64 years
Computation:	R/N x 100 Where R = number of persons aged 15–64 with disability who had face-to-face contact with ex-household family or friends in the previous week and N = total number of persons with disability aged 15–64 years
Numerator:	Number of persons aged 15–64 years who had face-to-face contact with ex-household family or friends in the previous week
Numerator data elements:	**Data Element / Data Set** **Data Element** Cared Accommodation indicator. **Data Source** ABS Survey of Disability, Ageing and Carers (SDAC), 2009 **Data Element / Data Set** **Data Element** Disability identifier.

Disaggregation: State/territory, by:

- disability status (has profound or severe disability, other disability or restrictive long term health condition, total with disability)

All with reported disability by State/Territory, by:

- sex (male, female, persons)
- age group (5–14 [for measures 2b and 2c only], 15–24, 25–34, 35–44, 45–54, 55–64, total)
- remoteness area (Major Cities, Inner Regional, other, total)
- English proficiency (very well/well, not well/not at all, total)
- country of birth (Australia, other English speaking countries, all English speaking countries, non-English speaking countries, total)
- sex by age group (where possible)

Comments: The National Aboriginal and Torres Strait Islander Social Survey (NATSISS) to be used for Indigenous data.

Data not currently available.

Data disaggregation will depend on reliability of estimates.

Representational attributes

Representation class:	Percentage
Data type:	Real
Unit of measure:	Person
Format:	N[NN.N]

Indicator conceptual framework

Framework and dimensions:	Social and support networks

Data source attributes

Data sources:

Data Source

ABS Survey of Disability, Ageing and Carers (SDAC), 2009

Data custodian

Australian Bureau of Statistics

Data Source

ABS General Social Survey (GSS), 2006

Accountability attributes

Reporting requirements:	Annually to COAG.
Organisation responsible for providing data:	Australian Bureau of Statistics with input from AIHW on social and community activities in scope.
Other issues caveats:	Indicator (b) is unchanged from indicator (b) in the previous NDA. No new data are available for this cycle of reporting.

Reporting issues are the same as listed in performance indicator (a).

2009 SDAC does not provide this data for the Indigenous population; therefore Indigenous data needs to be taken from a different source (e.g. NATSISS 2008).

The NATSISS uses the abbreviated form of the Disability Module, which is less detailed than the SDAC.

Social and community activities as defined in the NATSISS are more culturally appropriate for Indigenous Australians than those in the SDAC.

Comparison data for the non-disabled population is only available for the first of these performance indicators, from the General Social Survey 2006, and then only for adults.

SDAC does not collect information on whether had face-to-face contact for persons in cared accommodation. Data are available for private dwelling and non-cared accommodation special dwellings only.

No new data available (2009 SDAC and 2010 GSS reported for the previous cycle. 2008 NATSISS reported for the baseline).
