

National Disability Agreement: b(2)-Proportion of people with disability who travelled to a social activity in the last two weeks, 2013

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	Proportion of people with disability who travelled to a social activity in the last two weeks, 2013
METEOR identifier:	491933
Registration status:	<ul style="list-style-type: none">• Community Services (retired), Standard 23/05/2013• Disability, Standard 13/08/2015
Description:	The proportion of people with disability aged 5-64 years who travelled to a social activity in the last two weeks.
Indicator set:	National Disability Agreement (2013) Community Services (retired) , Standard 23/05/2013 Disability , Standard 13/08/2015
Outcome area:	People with disability achieve economic participation and social inclusion Community Services (retired) , Standard 23/07/2010 Disability , Standard 13/08/2015

Collection and usage attributes

Population group age from:	5 years
Population group age to:	64 years
Computation description:	The number of persons aged 5-64 years with disability who travelled to a social activity in the last two weeks, divided by the total number of persons with disability aged 5-64 years
Computation:	$R/N \times 100$ Where R = number of persons aged 5-64 years with disability who travelled to a social activity in the last two weeks, and N = total number of persons with disability aged 5-64 years
Numerator:	Number of persons aged 5-64 years with disability who travelled to a social activity in the last two weeks.

Numerator data elements:

Data Element / Data Set

Data Element

Travelled to a social activity in the last two weeks indicator.

Disaggregation:

State/Territory, by disability status (has profound or severe disability, other disability or restrictive long term health condition, total with disability, has no disability, total)

All with reported disability by State/Territory, by:

- sex (male, female, persons)
- age group (5–14 [for measures 2b and 2c only], 15–24, 25–34, 35–44, 45–54, 55–64, total)
- remoteness area (Major Cities, Inner Regional, other, total)
- English proficiency (very well/well, not well/not at all, total)
- country of birth (Australia, other English speaking countries, all English speaking countries, non-English speaking countries, total)
- sex by age group (where possible)

Frequency

Data custodian

Australian Bureau of Statistics

Accountability attributes

Reporting requirements: Annually to COAG.

Organisation responsible for providing data: Australian Bureau of Statistics with input from AIHW on social and community activities in scope.

Benchmark: n/a.

Other issues caveats: Indicator (b) is unchanged from indicator (b) in the previous NDA. No new data are available for this cycle of reporting.

Reporting issues are the same as listed in performance indicator (a).

2009 SDAC does not provide this data for the Indigenous population; therefore Indigenous data needs to be taken from a different source (e.g. NATSISS 2008).

The NATSISS uses an abbreviated form of the Disability Module, which is less detailed than the SDAC.

Social and community activities as defined in the NATSISS are more culturally appropriate for Indigenous Australians than those in the SDAC.

SDAC does not collect information on whether travelled to a social activity in the last two weeks for persons in cared accommodation. Data are available for private dwelling and non-cared accommodation special dwellings only.

No new data available (2009 SDAC reported for the previous cycle. 2008 NATSISS reported for the baseline).
