

National Disability Agreement: b(3)-Proportion of people with disability who report the main reason for not leaving home as often as they would like is their disability or condition, 2013

Identifying and definitional attributes

Metadata item type:	Indicator
Indicator type:	Output measure
Short name:	Proportion of people with disability who report the main reason for not leaving home as often as they would like is their disability or condition, 2013
METEOR identifier:	491935
Registration status:	<ul style="list-style-type: none">• Community Services (retired), Standard 23/05/2013• Disability, Standard 13/08/2015
Description:	The proportion of people with disability aged 5-64 years who report the main reason for not leaving home as often as they would like is their disability or condition.
Indicator set:	National Disability Agreement (2013) Community Services (retired) , Standard 23/05/2013 Disability , Standard 13/08/2015
Outcome area:	People with disability achieve economic participation and social inclusion Community Services (retired) , Standard 23/07/2010 Disability , Standard 13/08/2015

Collection and usage attributes

Population group age from:	5 years
Population group age to:	64 years
Computation description:	Number of persons aged 5-64 years with disability who report the main reason for not leaving home as often as they would like is their disability or condition, divided by total number of persons with disability aged 5-64 years
Computation:	$R/N \times 100$ Where R = number of persons aged 5–64 with disability who report the main reason for not leaving home as often as they would like is their disability or condition, and N = total number of persons with disability aged 5–64 years
Numerator:	Number of persons aged 5–64 years with disability who report the main reason for not leaving home as often as they would like is their disability or condition.

Disaggregation:

By state/territory

- Disability status (has profound or severe disability, other disability or restrictive long term health condition, total with disability, has no disability, total)

(All with reported disability 5–64 years by state/territory)

- Sex (male, female, persons)
- Age group (5-14, 15–24, 25-34, 35–44,45–54, 55–64, total 15–64)
- Remoteness Area (Major Cities, Inner Regional, total)
- Country of birth (Australia, other English speaking countries, all English speaking countries, non-English speaking countries, total (including inadequately described))
- English proficiency (no detail provided)
- Sex by age group (where possible)
- Indigenous people by state/territory.

Frequency
Data custodian
Australian Bureau of Statistics

Accountability attributes

Reporting requirements: Annually to COAG.
Organisation responsible for providing data: Australian Bureau of Statistics with input from AIHW on social and community activities in scope.
Benchmark: n/a.
Other issues caveats: Indicator (b) is unchanged from indicator (b) in the previous NDA. No new data are available for this cycle of reporting.
SDAC 2009 for all data except Indigenous; NATSISS 2008 for Indigenous data.
Reporting issues are the same as listed in performance indicator (a).
2009 SDAC does not provide this data for the Indigenous population; therefore Indigenous data needs to be taken from a different source (e.g. NATSISS 2008).
The NATSISS uses an abbreviated form of the Disability Module, which is less detailed than the SDAC.
Social and community activities as defined in the NATSISS are more culturally appropriate for Indigenous Australians than those in the SDAC.
SDAC does not collect information on the main reason for not leaving home as often as would like for persons in cared accommodation. Data are available for private dwelling and non-cared accommodation special dwellings only.
