Collection and usage attributes

Guide for use:

CODE 1 Yes

Use if the child had a current, documented and approved leaving care plan at 30 June in the reference period.

CODE 2 No

Use if the child did not have a current, documented and approved leaving care plan at 30 June in the reference period.

CODE 7 Not applicable

Use if the child was not required to have current, documented and approved leaving care plan at 30 June in the reference period.

CODE 9 Not stated/inadequately described

Use if it is unknown whether a current, documented and approved leaving care plan was in place on the night of 30 June in the reference period.

Comments:

A leaving care plan to assist transition from care to independent living must commence from when the young person turns 15 years of age. This count includes people who are aged 15 years on the night of 30 June of the reference year.

Note that in Victoria transition from care planning commences 12 months prior to the intended time the child/young person will leave care—as such, not all children aged 15 years currently require a leaving care plan.
