Data element attributes

Collection and usage attributes

Guide for use: CODE 1 Yes

Use if the child had a current, documented and approved leaving care plan at 30 June in the reference period.

CODE 2 No

Use if the child did not have a current, documented and approved leaving care plan at 30 June in the reference period.

CODE 7 Not applicable

Use if the child was not required to have current, documented and approved leaving care plan at 30 June in the reference period.

CODE 9 Not stated/inadequately described

Use if it is unknown whether a current, documented and approved leaving care plan was in place on the night of 30 June in the reference period.

Collection methods: If the child was required to have a leaving care plan on the night of 30 June (code 1 was entered for 'leaving care plan required indicator'), code 1, 2 or 9 should be recorded for this item.

Code 9 should only be recorded if it was unknown whether a plan was in place on the night of 30 June in the reference period.

If code 2, 7 or 9 was recorded for 'leaving care plan required indicator', then code 7 should be recorded for this item.

Comments: A leaving care plan to assist transition from care to independent living must commence from when the young person turns 15 years of age. This count includes people who are aged 15 years on the night of 30 June of the reference year.

Note that in Victoria transition from care planning commences 12 months prior to the intended time the child/young person will leave care—as such, not all children aged 15 years currently require a leaving care plan.
