- [Family and carer support](#)
- [Individual advocacy](#)
- [Care coordination](#)
- [Service integration infrastructure](#)
- [Education, employment and training](#)
- [Sector development and representation](#)
- [Mental health promotion](#)
- [Mental illness prevention](#)

Mental health non-government organisations are private organisations (both not-for-profit and for-profit) that receive Australian and/or state or territory government funding specifically for the provision of services where the principal intent is targeted at improving mental health and well-being and delivered to people affected by mental illness, their families and carers, or the broader community.

These services focus on providing well-being, support and assistance to people who live with a mental illness rather than the assessment, diagnostic and treatment tasks undertaken by clinically focused services.

## Collection and usage attributes

**Statistical unit:** Non-government organisations involved in the provision of mental health care services.

**Collection methods:** *National reporting arrangements*

Data are provided to the Australian Institute of Health and Welfare for national collation, on an annual basis, by government authorities providing funding to non-government organisations specifically for the provision of services where the principal intent is targeted at improving mental health and well-being and delivered to people affected by mental illness, their families and carers, or the broader community.

*Periods for which data are collected and nationally collated*

Financial years ending 30 June each year.

**Implementation start date:** 01/07/2015

**Comments:** *Glossary items*

Glossary terms that are relevant to this data set, other than those listed in the Scope section above as part of the mental health non-government organisation establishments service type taxonomy, are included here.
