## Number of online chat sessions conducted with clients

## Identifying and definitional attributes

Metadata item type: Property
METEOR identifier: 497346

Registration status: Health, Standard 13/11/2014

**Definition:** A count of online chat sessions conducted with clients.

Online chat sessions are any kind of communication over the Internet that offer a real-time direct transmission of text-based messages from sender to receiver, hence the delay for visual access to the sent message shall not hamper the flow of

communications in any of the directions.

Property group: Service provision event
